City of San Diego, Solid Waste Division		PROPOSED 8/23/78		
CITY LOCATION		SWMB APPROVAL 9/8/78		
College Grove Drive, between 55th Street and College Grove Way		ENFORCEMENT AGENCY APPROVAL 9/19/1978		
San Diego, California				

- A. This facility is an existing (prior to 1952) Class II-1 sanitary landfill. The area method of operation is utilized. The facility is located just off College Grove Drive between 55th Street and College Grove Way, San Diego, California. The site consists of 150 acres and as of June 1977, approximately 540,000 cubic yards of capacity remained. This equates to a minimum remaining site life of 1.6 years. Wastes received at this facility are of Group 2 and 3 classification and include:
- 1. Residential
 - 2. Commercial
 - 3. Tires
- There is no salvaging or refuse separation at the site. The daily average tonnage of wastes received is 1550 tons based on 5½ days of operation per week. Hazardous wastes or wastes with a liquid content greater than fifty percent are not accepted at this site. The landfill is open to the public seven days a week from 8 a.m. to 5 p.m. with the exception of nine paid holidays for city employees.
- B. Design and operation of this facility are as specified by the Report of Disposal Site Information which is hereby made a part of this finding. No significant changes in facility design or operation are presently anticipated.
- C. Land within 1,000 feet of the site is currently zoned and residential (R-1-5, R-2 & R-3), commercial (C-1-5), and industrial (M-1-A).
- D. This facility's operations are currently in compliance with the State Minimum Standards as determined by a physical inspection made on January 25, 1978.
- E. This permit is consistent with the Facility's Element of the San Diego County Solid Waste Management Plan as approved February 23, 1978. The facility is identified on pages V-6 and V-7 of this document.

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

- F. There are no land use approval, zoning, or waste discharge requirements which condition operation of this facility. Water runoff is adequately controlled by slope of fill surface, water collection system, and storm drains.

II. CONDITIONS

A. Requirements:

1. This facility must comply with all State Minimum Standards for Solid Waste Handling and Disposal.
2. This facility must comply with all Federal, State and local requirements and enactments.
3. The enforcement agency reserves the right to request additional information concerning the design and operation of this facility.

B. Prohibitions:

The following actions are prohibited at this facility:

1. Disposal of Group 1 or hazardous wastes
2. Scavenging
3. Open burning

C. Specifications:

1. No significant change in design or operation from that described in Item A and B of the "Findings" Section is allowed.

D. Provisions:

1. This permit is subject to review by the enforcement agency, and may be suspended, revoked, or modified at any time for sufficient cause.

E. Self-Monitoring Program:

The following items shall be monitored by the operator of the facility or his agent. Records including, but not limited to these items shall be kept and made available to the enforcement agency upon request:

1. Gas generation and migration monitoring as specified on page 6 (Methane Generation) in the Report of Disposal Site Information, dated August 22, 1977.
2. Special occurrences and excavation in natural terrain

STATE SOLID WASTE MANAGEMENT BOARD

Solid Waste Facility Permits

Decision #78-147

SUBJECT:

Proposed solid waste facility permits. Submitted by the SSWMB
as local enforcement agency.

FINDINGS:

The State Solid Waste Management Board makes the following finding of fact:

1. Proposed solid waste facilities permits for the following existing facilities in San Diego County have been submitted to this Board for concurrence with or objection to their issuance. The proposed permits are for the following facilities:
North Miramar Sanitary Landfill 37-SS-002
South Chollas Sanitary Landfill 37-SS-004
2. The proposed solid waste facilities permits are consistent with the applicable county solid waste management plans; and
3. The proposed solid waste facilities permits are consistent with the State Minimum Standards for Solid Waste Handling and Disposal; and
4. The State Solid Waste Management Board and its staff have reviewed the proposed solid waste facilities permits and concur with the form and content of those permits.

CONCLUSION:

The proposed solid waste facilities permits comply with the requirements of Article 2 of Chapter 3 of Title 7.3 of the Government Code, and with the requirements of the State Solid Waste Management Board. Consequently, the State Solid Waste Management Board concurs in the issuance of the subject proposed solid waste facilities permits.
